

Applied Economics & Finance M.S.

What can a first-year student expect in the program?

The M.S. Program in Applied Economics and Finance is a one-year program that provides analytical graduate training designed to prepare students for careers in business, international and domestic banking, consulting firms, government, and nonprofit organizations. The program combines theory with meaningful applications that students are likely to face in their professional careers.

What type of support do first-year graduate students in your program receive?

First-year students are provided merit-based grants.

When are graduate applications due for your program?

February 1st

Who can I contact for more information?

Sandra Reebie, Graduate Program Coordinator
(831) 459-2219, screebie@ucsc.edu
